## WELL & BORING GEOPHYSICAL DATA LOGGING

Gamma, Spontaneous Potential (SP), and Single Point Resistance (SPR) Logging

### EQUIPMENT:

Aries BT9600 Dual Viewing Color Camera  
Mount Sopris 40LGR—Gamma + SP + SPR with Matrix Logger  
Mount Sopris QL40—CAL—3 Arm Caliper (02" - 29")

### CAPABILITIES:

- » Front viewing and 360° sideview
- » Full color picture
- » Record to mp4 file or burn to DVD
- » 1000' camera winch cable
- » 4" minimum casing or borehole
- » Gamma logging
- » Spontaneous potential (SP) logging
- » Single point resistance (SPR) logging
- » 1640' logging winch cable
- » Wellcad software summary
- » Water or mud borehole fluid

### WellCAD Summary Example
